

BLUE HORIZONS

ELEMENTARY

Blue Horizons is a community, career explorations K-8 school. Relevance is at the heart of learning at Blue Horizons. Students deepen their core content knowledge and skills through career exploration projects and connections to career pathways. Blue Horizons utilizes rigorous district curriculum to fully equip students for high school and beyond.

PROJECT-BASED LEARNING

At each grade level, students research, design, create, and present projects or challenge solutions to an authentic audience from the perspective of a specific career role.

RIGOROUS CURRICULUM

Liberty District curriculum is aligned with Blue Horizons trimester inquiry-based projects that are focused on a specific career cluster. Students set high expectation goals for mastering core subject content and skills.

WORKPLACE SOFT SKILLS

Students build on soft skills such as critical thinking, creativity, communication, and collaboration. Students learn self-management skills to support both their academic and personal success and future careers.
